The Infamous McDermott Tattoo

What's the Big Deal?

The term "Big Deal" is relative, but Tori Spelling and Dean McDermott just got married in Fiji (May 7th 2006). Anyway, previous to this, Dean McDermott got a Tori Spelling Tattoo on his left arm. See the picture on the right. It's a strange tattoo to say the least, but people show their appreciation for each other in strange ways.

Who are they again ?

She's Aaron Spelling's Daughter. You know, the famous TV producer. Anyway, before she was the main influence behind the Tori Spelling Tattoo...way before, she starred on 90210. Remember Donna? That's her. Anyway, since then, she's been in Scream and the Scary Movie series. Dean McDermott, aka McDermie, McDermo, and McDermerino, has been in the business since about 1989. No one realized this until 1999 when he started on the Due South series. Most recently, he's starred in Tori Spelling Tattoo Madness 8, and that's about it.

The Tori Spelling Tattoo Promise!

We rarely make promises here at ILoveTattoosandPiercings.com well, because we don't often have to do so. However, I feel this occasion warrants it. People have been in an uproar that McDermerino (aka Dean McDermott) received an unfair amount of attention here just because he got a Tori Spelling Tattoo. Well it's just not true. Anyone, and I mean anyone, who gets a Tori Spelling Tattoo - picture, name, etc...will get a full page article about them here at ILoveTattoosandPiercings.com. So go get some Tori on you and get famous!
