The Circle of the Zodiac

What defines a Zodiac Tattoo?

A zodiac tattoo would be any tattoo that depicts one of the twelve signs of the zodiac: Aries the Ram, Taurus the Bull, Gemini the Twins, Cancer the Crab, Leo the Lion, Virgo the Virgin, Libra the Scales, Scorpio the Scorpion, Sagittarius the Archer, Capricorn the Goat, Aquarius the Water-Bringer, or Pisces the Fish. Each sign has both a symbol that represents the set of stars, and a picture, so one could get either inked and have a zodiac tattoo.

How did they come up with the Zodiac?

Way, way, back in the day, Babylonian astronomers divided the night sky into twelve sections. You see, without all of our current era's pervasive light pollution, you could really see the stars much better. With really no good way to determine what the locations of the stars, the scientists devised a plan to use these twelve sections to define zones in outer space, like a coordinate system. Astrology experts built on this system and claimed the stars and constellations they fit into had a profound influence on everyone - especially on your birthday. If you were born under the sign of the lion, you would behave a certain way your entire life.

Why should I get one inked?

There is no knowledge that isn't power, right? Supposedly if you know your zodiac sign and embrace it, you will live more harmoniously. All of your strange alignable elements (chakras, chakrobs, and chakaroos) will come into alignment and will bring peace, prosperity, and happiness. Getting a zodiac tattoo in a prominent place on your on your body signifies that you accept your sign and who you are. Of course, some lend themselves more easily to display.

Aries - The Ram

Attributes:

- Adventurous and Courageous

- Impulsive and Impatient

With your main controlling color being red, you enjoy winning challenges and overcoming adverse odds. However, because of this your main weaknesses are fear of failure and an inability to listen to other people's opinions - even when they are right.

Taurus - The Bull

Attributes:

- Reliable, Calm, Soothing
- Jealous, Grudgeful, Controlling

Your controlling color is pink, and you enjoy the simpler things in life. You love easily and deeply. Manage your jealousy wisely, or you will spoil all of the good part of love with your "what ifs."

Gemini - The Twins

Attributes:

- Friendly, Smart, and Energetic
- Superficial, Unpredictable

Your preferred controlling color is green. You chat and gossip and new events and happenings constantly. Manage your projects carefully, taking on too many at once will leave you sluggish and alone.

Cancer - The Crab

Attributes:

- Loving, Intelligent, Protective
- Moody, Jealous, Needy

Your controlling color is silver. Always involved in hobbies or with your children, you love your home and enjoy parties - maybe a little too much. Your extreme frustration will prevent you from being happy, so go ahead and listen to your friends and follow their advice. (For once.)

Leo - The Lion

Attributes:

- Warm, Generous, Giving
- Pompous, Bossy

Your controlling color is gold. The life of luxury is for you - filled with magistry and grandeur. Keep in mind, day to day tasks are a part of life for everyone, and be mindful of everyone else's income - it may not be as high as yours.

Virgo - The Virgin

Attributes:

- Intelligent, Conservative
- Quiet, Shy, harsh

Your controlling colors are green and dark brown. Your number one concern is your health. You tend to like things in order and clean. To improve yourself, (yes you can still improve) work tolerating others. Not everyone things exactly like you.

Libra - The Scales

Attributes:

- Fair, Easygoing, Likeable
- Indecisive, Easily Influenced

Your controlling color is blue. Equality, justice, kindness, these tenets define you. Always the peacemaker, you always settle the angered tempers of your friends. Be forewarned, your intolerance of cruelty and wrong-doing can get you into some sticky situations. Make sure you can win before you fight a particular injustice.

Scorpio - The Scorpion

Attributes:

- Powerful, Charismatic
- Secretive, Resentful

Your controlling color is maroon. Your methods are secretive, your reasons are your own. Most of the time, this works along side your mysterious manor. However, your untrusting nature often does not allow you to see the good in people. Don't drive potential friends away because of a previous relationship.

Sagittarius - The Archer

Attributes:

- Happy, Honest, Uplifting
- Naive, Superficial, Careless

Your controlling color is purple. A traveler at heart, you always seek new experiences. Many people don't appreciate your blunt manners, but they just don't see you like to cut to the heart of the matter instead of dancing around it. You trust very easily, which can lead you to company that is not wise to keep - be careful of those who say they just want your companionship.

Capricorn - The Goat

Attributes:

- Patient, Pragmatic, Funny

- Cheap, Pessimistic, Blunt

Your controlling color is brown. As a hard worker, you rely on professionalism and integrity in people. You do not trust very easily, to improve yourself, relax and be spontaneous. Who knows what an unexpected new experience may bring you?

Aquarius - The Water Bringer

Attributes:

- Honest, Friendly, Original

- Unpredictable, Perverse, Dark

Your controlling color is turquoise. The defender of the castle, the keeper of the faith, you are an unbalanced combination of good and evil. You enjoy fighting for a just cause, but beware of what you get yourself into - not everyone has your best interest at heart.

Pisces - The Fishes

Attributes:

- Imaginative, Sensitive

- Vague, Secretive, Short-Tempered

Your controlling color is aquamarine. Always mysterious, you hide your feelings and motives from everyone. You live life each day without looking back. While your unusual style turns some people off, it opens opportunities to you that are not open to others. Your downfall will be missing the obvious. Just because its right in front of you, doesn't mean it isn't rare.
